

STARCAST

Television Actress and Tarot Card Reader Munisha Khatwani's Guide to Life and Love this month

Aquarius (January 20 - February 18)

You lucky Aquarians — the world card says you guys are really going to enjoy the month. Looks like you will be pampering yourselves. It is a month to go shopping, maybe even buy something for a loved one. The lovers card also indicates that you will be in a very romantic mood and might even propose to the guy/girl of your dreams. The 6 of pentacles says you will be helping people this month.

Pisces (Feb 19 - March 20)

You might be slightly moody this month and may not be in the mood to listen to people, advises the emperor, but towards the end of the month something exciting is going to fire up in your love life and finances says the empress. Those looking for love just might encounter it! After all it is cupid's month. Trust your own guidance on love advises your Venus.

Aries (March 21 - April 19)

You (and Narayani Shastri) get into a mood of indulgence. You truly want to enjoy the good things in life. It is also a time for work, so that is great, says the 8 of pentacles. But don't work too hard because all work and no play make Jack a dull boy. The 3 of pentacles says you can expect an improvement in finances this month.

Taurus (April 20 - May 20)

Taureans are in the mood to travel and plans will soon materialize, indicates the 6 of swords. Your Mercury, on the other hand, is a little weak, which could land you in some sort of trouble if you get into any arguments. So avoid arguments this month. Good news is you will get support from a friend, indicates your Mars.

Gemini (May 21 - June 20)

You will have a new outlook towards your professional life, indicates your Sun. You might have issues to sort out on the personal front though, says the tower. Since you are going to be experiencing mixed emotions, do try and pamper yourself with a good massage or some relaxation treatments. Enjoy and be prepared to be spoilt!

Cancer (June 21 - July 22)

You (and Nausheen Ali Sardar) are going to have a pretty hectic social life and you will be busy choosing the social dos that you wish to attend and the ones you wish to ignore. Your Jupiter indicates an improvement in finances. So if you are looking for buying that special dress, car, or mobile phone, this could be the month to get your wishes fulfilled. A friendship will prove to be handy for you, says your Venus.

Leo (July 23 - August 22)

The 2 of pentacles says that you are going to be like a juggler this month. You will have to juggle everything, including your money, love, career etc. and find a balance in all these areas. Those looking for a job or a change of job might have to wait a few months more says your Rahu. Have patience, as good things happen to people who wait.

Virgo (August 23 - September 22)

You (and Prachi Desai) should be prepared to get a little emotional this month. Normally you are pretty practical but this month your Mercury being retrograde will take you into your past and might even get you nostalgic or emotional. Those looking to get back in shape, this is a good month says your Mars!

Libra (September 23 - October 23)

Loosen up a bit and Librans like you (and Gaurav Gera) might be a little worried about something materializing this month. The 8 of cups also says you might want to spend time alone and take a little bit of a break. Just make sure that you don't overspend as your Jupiter is a bit weak and could become a problem for you later.

Scorpio (October 24 - November 22)

Your self confidence will definitely improve this month says your Mars. At the same time, you might have to encounter a lot of arrogant people in your life. If you want to be the bigger person, just don't let it bother you, indicates the high priestess. You will also be quite spiritual this month.

Sagittarius (November 23 - December 21)

You (and Nikkhil Arya) are in the mood for romance this month, indicates your Venus. If in a relationship, you might think of a commitment, and if looking for romance, you just might meet that someone special this month. Partying too, is in the air and you wish to wine dance and just let loose.

Capricorn (December 22 - January 19)

Capricornians might be too busy working this month to enjoy your parties, says your Pluto. But your Jupiter says that your bank account is getting fatter, which is good news. You could join a gym, yoga class, or get into some exercise routine, as you realize your health needs attention, indicates your Saturn. For some, a good month to shift from your current job, says your Mercury.
